

## STYLE CHART

Oak is a hardwood species which is characterised by being extremely hard-wearing and therefore very suitable for flooring. It has an interesting grain structure and over time the natural ageing gives the wood an authentic appearance.

Junckers solid hardwood flooring is produced and categorized in accordance with EN 13629, EN 14342 and Junckers own factory standard. The floors are made exclusively from solid hardwood and the photographs illustrate the colour, knots and structural graining variation characteristic for the specific wood species and grade.

Each photograph shows the average appearance of the grade. It is normal to see a variation in appearance between individual boards, staves and floors produced and installed at differing times.

Up to 5% of the boards may contain features of the next style. Floors laid at different times may vary slightly because of this average grading.

Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

# 14, 22 & 20,5 MM OAK DRIFTWOOD GREY SOLID STRIP BOARDS & PLANKS

# TECHNICAL INFORMATION

THICKNESS X WIDTH: 14/22 X 129 MM

THICKNESS X WIDTH: 20,5 X 140/185 MM

## OAK DRIFTWOOD GREY STRIP BOARD HARMONY

This grade has a natural look where the share of heartwood adds a more distinct colour and structural graining variation between the individual staves. Medium sized knots and fine hairline splits occur to some degree. Knots and other irregularities are factory filled with a one colour filler.

## OAK DRIFTWOOD GREY PLANK HARMONY

This grade has a natural look with more colour and structural graining variation between the individual planks. Medium sized knots and fine hairline splits occur to some degree. Sapwood occurs. Knots and other irregularities are factory filled with a one colour filler.
